Erreth-Akbe's visit seems to have coincided with the final shift.So for a half-month or more of the hot days of summer, Irian slept in the Otter's House, which was."I gave it up, Darkrose. "No harm will come to you." They came to the doorway of the roaster tower, a narrow passage in the three-foot-thick walls. He took Otter's arm, for the young man hesitated..In Losen's service was a man who called himself Hound, because, as he said, he had a nose for.not any better at being a wizard than I am at bookkeeping? He was very lame, and could not always keep up the werelight. When it failed he had to stop and sit down and sleep. The sleep was never death, as he thought it was. He woke, always cold, always in pain, always thirsty, and when he could make a glimmer of the light he got to his feet and went on. He never saw Anieb but he knew she was there. He followed her. Sometimes there were great rooms. Sometimes there were pools of motionless water. It was hard to break the stillness of their surface, but he drank from them. He thought he had gone down deeper and deeper for a long time, till he reached the longest of those pools, and after that the way went up again. Sometimes now Anieb followed him. He could say her name, though she did not answer. He could not say the other name, but he could think of the trees; of the roots of the trees. This was the kingdom of the roots of the trees. How far does the forest go? As far as forests go. As long as the lives, as deep as the roots of the trees. As long as leaves cast shadows. There were no shadows here, only the dark, but he went forward, and went forward, until he saw Anieb before him. He saw the flash of her eyes, the cloud of her curling hair. She looked back at him for a moment, and then turned aside and ran lightly down a long, steep slope into darkness..second was the Ulysses. Five pilots to a ship, and the rest scientists. Then, as the dragon bore our friend away, the Summoner fell down..So the pattern of the years was set for Tern. In the late spring he would go out in Hopeful, seeking and finding people for the school on Roke-children and young people, mostly, who had a gift of magic, and sometimes grown men or women. Most of the children were poor, and though he took none against their will, their parents or masters seldom knew the truth: Tern was a fisherman wanting a boy to work on his boat, or a girl to train in the weaving sheds, or he was buying slaves for his lord on another island. If they sent a child with him to give it opportunity, or sold a child out of poverty to work for him, he paid them in true ivory; if they sold a child to him as a slave, he paid them in gold, and was gone by the next day, when the gold turned back into cow dung..Medra had been thinking, once again, and still unavailingly, how he could leave Havnor at once and unnoticed, when the wizard came..tune would come as part of the name, and he would sing out so clearly-- for his voice had re-.the silence of the mother darkness into his mind.."She's Irian of Westpool's mare. He had said nothing about himself, but Dulse had asked around a bit. The father, a longshoreman, had died in the big earthquake, when Silence would have been seven or eight; the mother was a cook at a waterfront inn. At twelve the boy had got into some kind of trouble, probably messing about with magic, and his mother had managed to prentice him to Elassen, a respectable sorcerer in Valmouth. There the boy had picked up his true name, and some skill in carpentry and farmwork, if not much else; and Elassen had had the generosity, after three years, to pay his passage to Roke. That was all Dulse knew about him..That was unusual, though perhaps not so unusual among the wealthy as among common folk.
