Her hands fell slowly..I will row..Sunbright had not been gone three days when a new stranger appeared in town: a man riding up the south road on a good horse and asking at the tavern for lodging. They sent him to Sans house, but San's wife screeched when she heard there was a stranger at the door, crying that if San let another witch-man in the door her baby would be born dead twice over. Her screaming could be heard for several houses up and down the street, and a crowd, that is, ten or eleven people, gathered between Sans house and the tavern..male, though in fact the gender of all dragons is a matter of conjecture, and in the case of the mage-warlords of Wathort raided Roke, and killed almost all the grown men of the island. But I believe you have a gift, perhaps a great gift. When I told Master Hemlock what I'd seen you do, he agreed with me. He said that you may go study with him in South Port for a year, or perhaps longer."..by depriving the old stories of their intellectual and ethical complexity, turning their action to..over all Havnor now for years..He sat down on his narrow bunk and looked at her sitting on her narrow bunk; they could not face each other directly, as there was no room for their knees. At O Port she had bought herself a decent shirt and breeches, at his suggestion, so as to look a more probable candidate for the School. Her face was windburned and scrubbed clean. Her hair was braided and the braid clubbed, like Ivory's. She had got her hands clean, too, and they lay flat on her thighs, long strong hands, like a man's..the ragged shirt and saying nothing. It proceeds.."What's up?" said Kurremkarmerruk. "I've been reading about dragons. Not paying attention. But all the boys I had studying at the Tower left."..So Diamond, instead of learning spells and illusions and transformations and all such gaudy tricks, as Hemlock called them, sat in a narrow room at the back of the wizard's narrow house on a narrow back street of the old city, memorizing long, long lists of words, words of power in the Language of the Making. Plants and parts of plants and animals and parts of animals and islands and parts of islands, parts of ships, parts of the human body. The words never made sense, never made sentences, only lists. Long, long lists..what she pleased in order to have her do at last what he pleased, and the game, he thought, was."Whatever for?"..the darkness remained. He turned her over to the housekeeper and forgot about her. When he was drunk sometimes he remembered her. If he could find her, he made her stand by his chair or sit on his knees and listen to all the wrongs that had been done to him and to the house of Iria. He cursed and cried and drank and made her drink, too, pledging to honour her inheritance and be true to Iria. She drank the wine, but she hated the curses and pledges and tears and the slobbered caresses that followed them. She escaped, if she could, and went down to the dogs and the horses and the cattle, and swore to them that she would be loyal to her mother, whom nobody knew or honoured or was true to, except herself..water was dark, though it lay out under the bright sky and far above the peat soils. Dulse. Medra did not answer at once. "Chance," he said at last, "favoring long desire. Not art. Not knowledge. I think I've come to the place I sought, but I don't know. The ship's weatherworker came aboard just before they sailed, no Roke wizard but a weatherbeaten fellow in a worn sea-cloak. Ivory flourished his staff a little in greeting him. The sorcerer looked him up and down and said, "One man works weather on this ship. If it's not me, I'm off." "Ivory," said the Doorkeeper. "A lad from Havnor Great Port, whom I let in three years ago, and fellow that's been here before, from the south coast, and so San hired him. You work for me and on Roke!" With him were a violist, a tabor-player, and Rose, who played fife. Their first tune was a stampy, fast and brilliant, too fast for some of the dancers. Diamond and his partner stayed in, and people cheered and clapped them when they finished the dance, sweating and panting. "Beer!" Diamond cried, and was carried off in a swirl of young men and women, all laughing and chattering.. "How strange you are! It's altogether as though you weren't. . ." She broke off.. "Tonight," Dragonfly said. "At our spring, under Iria Hill. What he doesn't know won't hurt him." Her voice was half-coaxing, half-savage.. "It's nothing," he said. "It isn't the life I want." When she did so, Alder's wife Tawny and several other people agreed with her that a squabble. She had planted a young rowan from the Grove beside the fountain. They came to be sure it was thriving. The spring wind blew strong, seaward, off Roke Knoll, blowing the water of the fountain astray. Up on the slope of the Knoll they could see a little group of people: a circle of young students learning how to do tricks of illusion from the sorcerer Hega of O; Master Hand, they called him. The sparkweed, past flowering, cast its ashes on the wind. There were streaks of grey in Ember's hair.. So it was. For the rest of his life, Medra kept the doors of the Great House on Roke. The garden door that opened out upon the Knoll was long called Medra's Gate, even after much else had changed in that house as the centuries passed through it. And still the ninth Master of Roke is the Doorkeeper.. "Aha. Well, in a sense -- yes. But you can undress on the beach."
