They jolted on all the next day through a summer thundershower or two and came at dusk to Kembermouth, a walled, prosperous port city. They left the carter to his master's business and walked down to find an inn near the docks. "I won't sail my boat across Havnor, dear love. I plan to go around it. By water." He could always make her laugh; he was the only one who could. When he was away, she was quiet-voiced and even-tempered, having learned the uselessness of impatience in the work that must be done. Sometimes she still scowled, sometimes she smiled, but she did not laugh. When she could, she went to the Grove alone, as she had always done. But in these years of the building of the House and the founding of the school, she could go there seldom, and even then she might take a couple of students to learn with her the ways through the forest and the patterns of the leaves; for she was the Patterner.. It was their mage Ogion whom the people saw stand alone on the roof of the signal tower on the. the limited habitable land available to them. Famine is unknown and poverty seldom acute.. "Somebody's been coming around," he said, incredulous that she could turn against him. "Who's been after you?". "To reach out the Hand to Enlad and Ea. I've never gone there. We know nothing about their wizardries. Enlad of the Kings, and bright Ea, eldest of isles! Surely we'll find allies there". "No, I don't," I replied, unexpectedly stubborn. She went to the bar and brought back a. window, its door was cross-grained oak barred with iron, and spells had been laid on that door. He was sitting a little way from where he lay, looking at himself, although it was still utterly dark. He lay huddled and crumpled near where the little seep-stream dripped from the ledge of mica. Not far away lay another huddled heap, rotted red silk, long hair, bones. Beyond it the cavern stretched away. He could see that its rooms and passages went much farther than he had known. He saw it with the same uncaring interest with which he saw Tinaral's body and his own body. He felt a mild regret. It was only fair that he should die here with the man he had killed. It was right. Nothing was wrong. But something in him ached, not the sharp body pain, a long ache, lifelong.. which the poem was first spoken.. The new student cleaned out the henhouse and hoed the bean-patch, learned the meaning of the Glosses of Danemer and the Arcana of the Enlades, and kept his mouth closed. He listened. He heard what Dulse said; sometimes he heard what Dulse thought. He did what Dulse wanted and what Dulse did not know he wanted. His gift was far beyond Dulse's guidance, yet he had been right to come to Re Albi, and they both knew it.. After a long time, she came back to the sunlight and the stableyard and her thoughts and puzzles. "But even if he's gone," she said, "surely some of the Masters are truly wise?". So presently the Masters of Roke met to choose a new.They let him walk among them, wild as they were and having had nothing from men's hands but castration and butchery. He had a pleasure in their trust in him, a pride in it. He should not, but he did. If he wanted to touch one of the great beasts he had only to stand and speak to it a little while in the language of those who do not speak. "Ulla," he said, naming them. "Ellu. Ellua." They stood, big, indifferent; sometimes one looked at him for a long time. Sometimes one came to him with its easy, loose, majestic tread, and breathed into his open palm. All those that came to him he could cure. He laid his hands on them, on the stiff-haired, hot flanks and neck, and sent the healing into his hands with the words of power spoken over and over. After a while the beast would give a shake, or toss its head a bit, or step on. And he would drop his hands and stand there, drained and blank, for a while. Then there would be another one, big, curious, shyly bold, muddy-coated, with the sickness in it like a prickling, a tingling, a hotness in his hands, a dizziness. "Ellu," he would say, and walk to the beast and lay his hands upon it until they felt cool, as if a mountain stream ran through them..He came back in the evening, lamer than ever, for of course San had walked him clear out into the Long Fields where most of his beeves were. Nobody had horses but Alder, and they were for his cowboys. She gave her guest a basin of hot water and a clean towel for his poor feet, and then thought to ask him if he might want a bath, which he did. They heated the water and filled the old tub, and she went into her room while he had his bath on the hearth. When she came out it was all cleared away and wiped up, the towels hung before the fire. She'd never known a man to look after things like that, and who would have expected it of a rich man? Wouldn't he have servants, where he came from? But he was no more trouble than the cat. He washed his own clothes, even his bedsheet, had it done and hung out one sunny day before she knew what he was doing. It may be that Segoy is or was one of the Old Powers of the Earth. It may be that Segoy is a name for the Earth itself. Some think all dragons, or certain dragons, or certain people, are manifestations of Segoy. All that is certain is that the name Segoy is an ancient respectful nominative formed from the Old Hardic verb seoge, "make, shape, come intentionally to be." From the same root comes the noun esege, "creative force, breath, poetry." file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (65 of 111) [2/5/2004 12:33:31 AM]. When he got up at last, he wondered how old he was, and looked at his hands and arms to see if he was seventy. He still looked forty, though he felt seventy and moved like it, wincing. He got his clothes on, foul as they were from days and days of travel. There was a pair of shoes under the chair, worn but good, strong shoes, and a pair of knit wool stockings to go with them. He put the stockings on his battered feet and limped into the kitchen.
