All I could see of Harry.Once there was a poor man named Amos. He had nothing but his bright red hair, fast fingers, quick feet, and quicker wits. One grey evening when the rain rumbled in the clouds, about to fall, he came down the cobbled street toward Mariner's Tavern to play jackstraws with Billy Belay, the sailor with a wooden leg and a mouth full of stories that he chewed around and spit out all evening. Billy Belay would talk and drink and laugh, and sometimes sing. Amos would sit quietly and listen?and always win at jackstraws..She was almost drowned out by a rising tide of babble at the door. Have you lived here long, Mr. Maliory?".I sat up so fast I almost fell out of the chair. I gave her a long, hard stare, but her neutral expression.I will?when the authors keep politics out of their stories. But they never do; in fact, it seems absolutely impossible to write anything without immediately making all sorts of assumptions about what human nature is, what good and bad behavior consists of, what men ought to be, what women ought to be, which states of mind and character are valuable, which are the opposite, and so on. Once fiction gets beyond the level of minimal technical competence, a reviewer must address these judgments of value. Generally, readers don't notice the presence of familiar value judgments in stories, but do notice (and object to) unfamiliar ones as "political." Hence arises the insistence (in itself a very vehement, political judgment) that art and politics have nothing to do with one another, that artists ought to be "above" politics, and that a critic making political comments about fiction is importing something foreign into an essentially neutral area. But if "politics" means the relations of power that obtain between groups of people, and the way these are concretely embodied in personal relations, social institutions, and received ideas (among which is the idea that art ought not to be political), then such neutrality simply doesn't exist Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction bears any relation to truth (as Matthew Arnold thought), then the human (including social and political) truth of a piece of fiction matters, for aesthetic reasons. To apply rigid, stupid, narrow, political standards to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For an example of (to my mind) profound, searching, brilliant, political criticism, see Jean-Paul Sartre's Saint Genet.household word." His eyes said he'd really rather not tell me what it was.
