on the empty sky..After the death of Orm the dragons remained a threat in the West, especially when provoked by dragon hunters, but they withdrew from their encroachments on peopled islands and peaceful shipping. Yevaud of Pendor was the only dragon to raid the Inward Lands after the time of the Kings. No dragon had been seen over the Inmost Sea for many centuries when Kalessin, called the Eldest, brought Ged and Lebannen to Roke Island..A long silence..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (79 of 111) [2/5/2004 12:33:31 AM].In her bed, in the dark, she lay and thought: He knew the wizard who named me. He let his sending sit down in the grass near Heleth, though it did not bend the stems of the grass where it stepped or sat. "I've done nothing but set the city in a panic," he said. "And send the ships out of the bay. What is it you feel? How do you feel it?".It may be that Segoy is or was one of the Old Powers of the Earth. It may be that Segoy is a name.They were both shy. When Medra took her hand his hand shook, and Ember, whose name was Elehal, turned away scowling. Then she touched his hand very lightly. When he stroked the sleek black flow of her hair she seemed only to endure his touch, and he stopped. When he tried to embrace her she was stiff, rejecting him. Then she turned and, fierce, hasty, awkward, seized him in her arms. It wasn't the first night, nor the first nights, they passed together that gave either of them much pleasure or ease. But they learned from each other, and came through shame and fear into passion. Then their long days in the silence of the woods and their long, starlit nights were joy to them..After this struggle, the line of the Kargish kings continued in Hupun, nominally honored but powerless. The Four Lands were governed from Awabath. The high priests of the Twin Gods became Priestkings, In the year 840 of the Archipelagan count, one of the two Priest-kings poisoned the other and declared himself to be the incarnation of the Sky Father, the Godking, to be worshiped in the flesh. Worship of the Twin Gods continued, as did the popular worship of the Old Powers; but religious and secular power was henceforth in the hands of the Godking, chosen (often with more or less concealed violence) and deified by the priests of Awabath. The Four Lands were declared to be the Empire of the Sky and the Godkings official title was All-Emperor..astray. The morning sun."Put your feet up to the fire," she said abruptly. "I have some old shoes of my husbands." It cost her something to say that,

yet when she had said it she felt released, untied too. What was she keeping Bren's shoes for, anyhow? They were too small for Berry and too big for her. She'd given away his clothes, but kept the shoes, she didn't know what for. For this fellow, it would seem. Things came round if you could wait for them, she thought. When I think of you." Otter walked on a mile, brooding; then circled back, leading Licky to a hillock not far from the.By that time there were many people of the Hand who knew what was afoot on Roke. Young people came there sent by them. Men and women came to be taught and to teach. Many of these had a hard time getting there, for the spells that hid the island were stronger than ever, making it seem only a cloud, or a reef among the breakers; and the Roke wind blew, which kept any ship from Thwil Bay unless there was a sorcerer aboard who knew how to turn that wind. Still they came, and as the years went on a larger house was needed for the school than any in Thwil Town..He helped her stand. He made no spell to protect or hide them. His strength had been used up. And though there was a great magery in her, which had brought her with him every step of that strange journey into the valley and tricked the wizard into saying his name, she knew no arts or spells, and had no strength left at all..He wanted to hurt her, to shock her out of her terrible, ignorant kindness, but what he said when."The carters go down to Endlane, summers."One of the gifts of power is to know power. There she sank."Your Rose is a wise flower," said the mage, unsmiling..magnified in white sweeping surfaces. I made for the edge of the geometrically perfect.However the Division came about, from the beginning of historical time human beings have lived in the main Archipelago and the Kargad Lands east of it, while the dragons kept to the westernmost isles-and beyond. People have puzzled at their choosing the empty sea for their domain, since dragons are "creatures of wind and fire," who drown if plunged under the sea. But they have no need to touch down either on water or on earth; they live on the wing, aloft in air, sunlight, starlight. The only use a dragon has for the ground is some kind of rocky place where it can lay its eggs and rear the drakelets. The small, barren islets of the farthest West Reach suffice for this.."A school," Ember said. "Where the wise might come to learn from one another, to study the pattern...The Grove would shelter us."Heru, the Queen Mother, gave the emissary the arm ring Morred gave Elfarran; her consort Aimal had.cheese, roast kid, company," he said..fought..Then that was gone and he stood facing the witch-girl. The priests of the Twin Gods were in the process of wresting power from the kings and making Awabath not only the religious but the political center of the country. Erreth-Akbe's visit seems to have coincided with the final shift of power from the kings to the priests. King Thoreg received him with honor, but Intathin the High Priest fought with him, defeated or deceived him, and for a time imprisoned him. The Ring that was to bond the two kingdoms was broken..She closed her eyes in bliss and listened..will be frank with you. The dark sea was so quiet that the stars were reflected here and there on the sleek lee side of the long swells. Oared galleys seldom went out of

sight of land and seldom rowed through the night, laying to in any bay or harbor; but there was no moorage on this crossing, and since the weather was settled so mild, they had put up the mast and big square sail. The ship drifted softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep but the helmsman and the lookout, and the lookout was dozing. The water whispered on her sides, her timbers creaked a little, a slaves chain rattled, rattled again..That is, human beings chose to have possessions and dragons chose not to. But, as there are.nearest was open. I looked in. A large, broad-shouldered man looked in from the opposite side..The wizard kept the name Roke in his memory, and when he heard it again, and in the same connection, he knew Hound had been on a true track again.. "Where are you going?" a warm alto answered immediately..morning; Hemlock went back to the ancient cantrip he was annotating; it was not till supper time.What do I want? she asked herself, and the answer came not in words but throughout her whole body and soul: the fire, a greater fire than that, the flight, the flight burning -.Diamond sat in his own sunny room upstairs, on his comfortable bed, hearing his mother singing as she went about the house. He held the wizard's letter and reread the message and the two runes many times. The cold and sluggish mind that had been born in him that morning down in the sallows accepted the lesson. No magic. Never again. He had never given his heart to it. It had been a game to him, a game to play with Darkrose. Even the names of the True Speech that he had learned in the wizard's house, though he knew the beauty and the power that lay in them, he could let go, let slip, forget. That was not his language..at all. These were words he wanted but had not expected to hear. He took the young man's arm.,opened and entered a great cavern. But though the roots of Roke are the roots of all the islands.,But after he had rested a couple of days, he asked her who the cattlemen of the village were, and.nothing but bone and shadow. To know the true name is to have power, as you know, mistress. And."What's that all about?" Golden said to his wife, a rhetorical question. She looked at him and said nothing, a non-rhetorical answer..On his rides, he sometimes passed an old house on a hill among great oaks. When he turned off the village lane up the hill, a pack of scrawny, evil-mouthed dogs came pelting and bellowing down at him. The mare was afraid of dogs and liable to buck and bolt, so he kept his distance. But he had an eye for beauty, and liked to look at the old house dreaming away in the dappled light of the early summer afternoons..beast he touched is standing yet, and hale. Ten days he spent out there in the wind and the rain.,Ogion, obedient, bringing himself back to himself in the stuffy, tapestried room in Gont Port, did not understand the old man's joke until he turned to the window and saw the Armed Cliffs down at the end of the long bay, the jaws ready to snap shut. "I will," he said, and set to it..House. When they came there, it was late afternoon. He went down to the stream and drank from it.But after ten days or so, Licky said, "Master Gelluk's coming here.
